

# Cycla Air Pump Prime

## Bicycle Air Pump

SKU: CY-AIRP

Specifically engineered heavy-duty bicycle air pump.

Pump up and get back to riding. Cycla Air Pump Prime is a manual public bike pump providing cyclists an easy to use airing station when its needed most.

Designed and made in the USA with patent US9,765,766 B2 and will withstand all weather conditions. It is built from tough, Schedule 40 steel, and is serviceable down to the plunger and gaskets. Featuring a universal pump head with Presta and Schrader valve compatibility. The pump hose is made from steel-reinforced hydraulic hose for added durability.

Ideal for public spaces, recreational trails, cycle paths, and end-of-trip facilities.

### Features
