

Elkay® EZH2O® Auto Sensor Surface Mount

Bottle filling station

SKU: EZWSSMJO

The Elkay EZH2O® water bottle filling station is distinguished by its compact, space saving design that can be activated hands-free.

The unit quickly delivers fresh drinking water through an anti-microbial bottle refill nozzle whilst enhancing sustainability by reducing the user's dependency on disposable plastic bottles. The sanitary hands-free activation sensor has a 20 second shut off time, while the Green Ticker counts the number of bottles saved from waste.

The EZH2O Auto Sensor Surface Mount is ideal for schools and sports complexes, providing clean, fresh bottle refills for users on the go.
