

Aquafil Bold 850BF

Artwork Instructions

- Create your artwork using CMYK colours.
- Ensure images and rasterised text are 300 dpi when placed at 100%.
- Keep all other artwork or logo's in vector format.
- Embed all linked graphics, ensuring they are at least 300dpi.
- Convert all fonts to outlines.
- Turn off template guide layer.
- Save the artwork in .pdf.

Artwork Safe Area (place all text and elements in this area)

Artwork Bleed (this will get cut off)

No Print Area (outlets or other components will cover artwork)

The diagram shows a rectangular dog bowl with a light gray background. The top corners are clipped. Four yellow circles represent mounting points: two at the top corners and two at the bottom corners. A horizontal red double-headed arrow at the top indicates a width of 207mm for the 'VISIBLE ARTWORK' area. A vertical red double-headed arrow on the right indicates a height of 738mm for the 'VISIBLE ARTWORK' area. The bottom section of the bowl has a diagonal hatching pattern and contains two text blocks.
