

Aquafil FlexiShower Double-sided

Artwork Instructions

- Create your artwork using CMYK colours.
- Ensure images and rasterised text are 300 dpi when placed at 100%.
- Keep all other artwork or logo's in vector format.
- Embed all linked graphics, ensuring they are at least 300dpi.
- Convert all fonts to outlines.
- Turn off template guide layer.
- Save the artwork in .pdf.

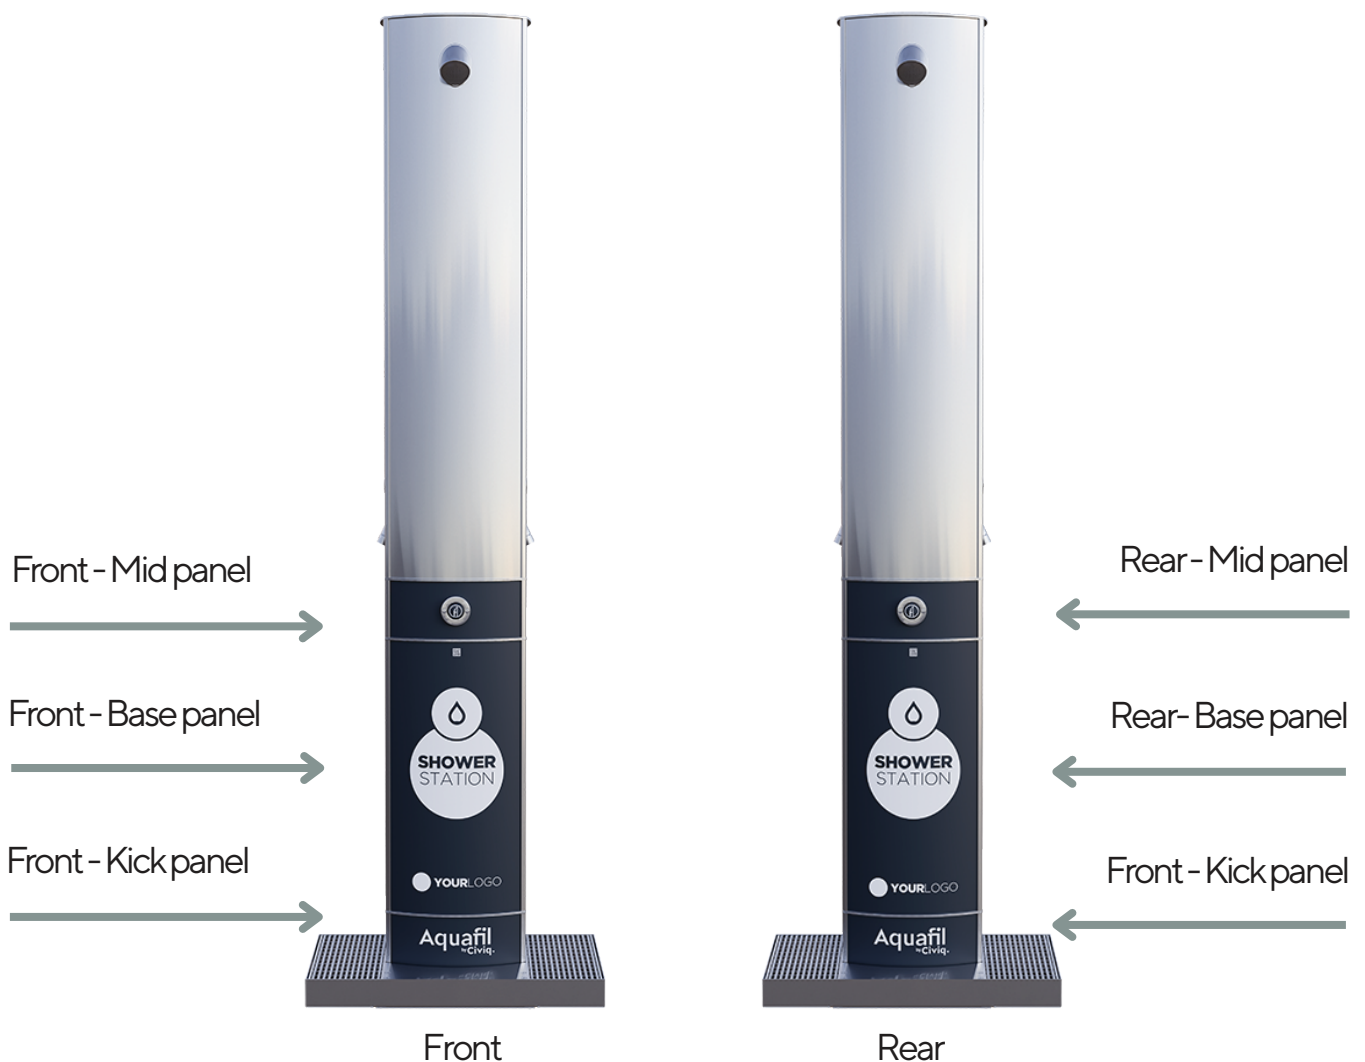

Artwork Safe Area (place all text and elements in this area)

Artwork Bleed (this will get cut off)

No Print Area (outlets or other components will cover artwork)
